vols for 1945 include shows of tomorrow annual ed

as a veteran of both the bureau of economics of the federal trade commission and the senate subcommittee on antitrust and monopoly during the 1960s author blair is an advocate his advocacy of his position is clear concise and understandable he favors strong antitrust laws and the stricter application of those laws to existing corporate structures and this is his argument first it defines and discusses four types of economic concentration market vertical conglomerate and aggregate second high concentration as opposed to diffusion of control is shown to be neither the necessary nor the natural state of the economy because centrifugal forces eventual diseconomies of scale growth and technological change constantly are chipping away at dominance and ossification third it argues that the primary causes of high and rising concentration of various kinds are neither natural nor technological imperatives economies of scale technological change

rather they are artificial and unnecessary centripetal factors the most important being mergers acquisitions tv advertising predation and anticompetitive government policies of various kinds the result therefore is a work rich in empirical information and skillful in interpreting and verifying new data and statistical approaches moreover it integrates a substantial quantity of data never attempted in this area in the past in this sense it is an excellent contribution no topic considered has been shortchanged the treatment is competent but the effort to cover the entire waterfront leaves several urgent questions what can be done and where how may we attempt new approaches to our subject how may we first better convince the general public and congress that indeed a strong antitrust policy is desirable

each edition includes information for that year and several previous years
